Misty skies talking loud

B7

& clouds reach for my hand

Emaj7 Emaj7/Eb

I don't know where You're going

C#m7 B7

But You take my hand

Emaj7 Emaj7/Eb C#m7

Take my heart and cleanse with fire

B7

A furnace of Your love

Emaj7 Emaj7/Eb C#m7

Talk me off the cliff of fear

B7

And draw me ever near

F#m7 B7

*Oh Jesus You are everything to me*

Oh I'll walk and then I'll fall

Oh I'll dance and then I'll crawl

All the while Your grace is where I fall and stand

Reveal the depths and mysteries

Unfold the aches and the longing

That draw me closer to Your heart

*Oh Prince of Peace You have captured me*

E A E

[the] Awakened sleeper is singing

B E A

This newborn mercy is breathing

E B

As You rain down Your grace upon my face

E A

Renew me even now

E B E A

Oh fire and desire

E

B

Let my voice be fragrance to Your heart in this hour

Ignite Your children to  
The nations at every corner  
Feet with beauty break  
For the Lost and needy... & over  
Every child, every beating heart  
Every orphan, every lonely heart  
Every widow, every broken heart  
Every crying out for a new start

Let these prayers twist and turn

A

And linger, burn

B

And fall a fragrance to Your heart tonight

F#m7

G#m7

A

I'm losing myself in Your love for me

B

As the twilight calls the morning sun tonight
